Exporting Data

To verify your district data, analyze data, and cleanup your data you can follow the export process below.

1. Sign in to the data manager and go to Import/Export.

2. Hover over Import/Export to bring up menu and select Export.

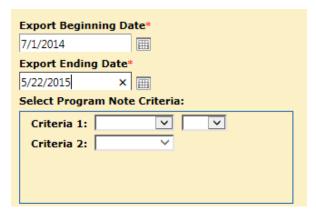

3. Select the type of report you want to export. To get student assessment information and demographics you will select **Student and Assessment Summary.**

4. Select the district, school, or class you want to pull data from.

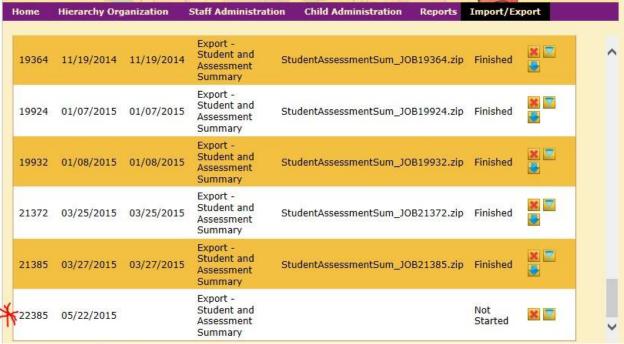

5. Choose the range of dates you want to pull. Data is pulled for fiscal year for state reports which is July 1 through June 30.

6. Enter your email address so you receive notifications that the report is being gathered and when the report is available. Then select **Schedule Export**.

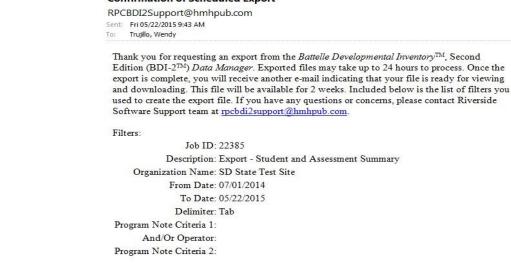

7. You will be taken to the Schedule Queue page where you will see your request at the bottom of the list. It will be listed as "Not started yet" while the program is running your report.

Your exported file from the Battelle Developmental Inventory M., Second Edition (BDI-2TM) Data Manager is now available for viewing and downloading in the Scheduled Queue, located under the Import/Export tab. This file will be available for 2 weeks, so please plan accordingly. If you have any questions or concerns, please contact Riverside Software Support team at rpcbdi2support@hmhpub.com.

(If you don't close screen you can refresh the page when the report is available).

1. Hover over the **Import/Export** from the menu select **Schedule Queue**.

2. Find your report at the bottom of the list. Select the button.

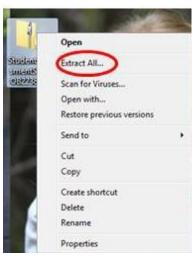

3. You will get a pop-up with the option to save. You will need to save the file to your computer.

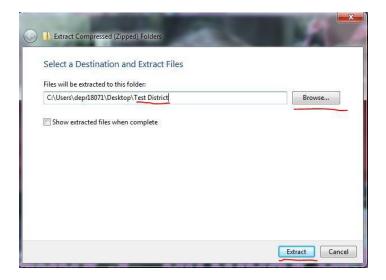

4. Once you have saved you will get a folder that looks like this. You will then need to extract the file.

5. Right click on the exported file and select **Extract All**.

6. You will get a new pop-up to select where you want to save the new file, choose where you want to save. You may want to rename the file, so you can distinguish between the extracted file and the exported file. Select **Extract** when you have the file name and location set.

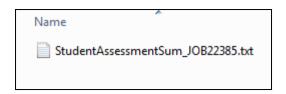

7. The new file will show up in the location you chose. Open the file.

8. Open the file several times to get to the document needed. Below is the series of icons you will see as you open the files.

9. This is the final file with the data you need.

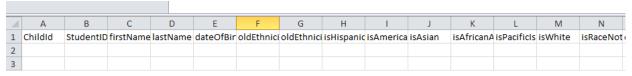

10. Open the **StudentAssessmentSum** text file to get data that looks like the image below. In order to view and manage the data you will need to copy and paste the data into an excel file.

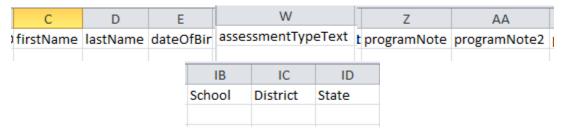

How to Transfer Data to Excel

- 1. Menu bar go to "Edit" and "Select all"
- 2. Menu bar go to "Edit" and "Copy"
